No Technicalities in Laying Out St. Louis Playing Field Will Be Overlooked by Cokers.

GRAYS COMING STRONG

More advance preparations are be ing made this week for the class Sat-urday with the Homestead Grays than for any other played at Fayette Field this season. The Cokers are determined that not the slightest technicalit, in laying off the field shall be overlooked. In a former game with the G-ays, the failure of the management to have a catcher's box outlined restated in a balk being called on the Independent receiver, which finally resulted in defeat.

The innerd will be scraped clean of sidiand earth used to level us the dia-nond. A reaper will be taken to the oithold to cut the grass.

LABOR DAY GAME
Labor Day will see many of the industries and business concerns of the city closed. The chief attraction for the day will be a buseball game at fayette Fleid between Whitney and tie lecal Independents.

STORT CHIRPS.

It's September now. Not much more laseball season left.

Keep up the attendance for a few nation games and the Independents will lave closed a successful season.

Practically every organization in the toke region will have a learn in the field next year that will be a world heater, according to each one's pre-dictions. The Cokers aren't saying much but they declare they will be in he field again in 1921.

Herrod will pitch the Labor Day jame against Whitney. He will also to on the mound Saturday against the Homestead Grays.

And we're specializing on tire service to the owners of these lighter cars.

We're maintaining complete stocks of Goodyears in the smooth, anti-skid and all-weather freads.

We Have Goodyear Heavy Tourist Tubes Too.

The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30×3 , $30\times3\frac{1}{2}$ and 31×4 -inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.
